

Classifier Mill Type MS

Application:

Grinding of mineral products into medium fineness like:

Calcite
Dolomite

Grinding of:

Powder coatings
Chemical products
Plastics

Features:

Classifier mill with two independent drives
Mill body with grinding track, rotating discs

with beater elements
Classifier integrated in the mill housing
Top of milling chamber easy to open for cleaning and maintenance

Mill drive with fixed speed
Classifier drive with variable speed

Performance:

Capacity 0,2 to 6 t/h
Fineness from 40 μ to 120 μ
